“ I worked with David for many years at Owens Corning in the wool plant, and yard crew. Dave was hard worker, he use to work with me on the clean out crew running the “Jet Edge” it shot a stream of water at 40,000 psi. David always tried running the jet edge, we where working on a clean out once using the jet edge. He was setting on the floor, and he pulled the trigger and he slid across the floor to the other side. He looked at me and just started laughing.  
I’m going to miss David, my thoughts and prayers are with you all. Rest In Peace my friend
